June 24, 2020

Dear Montessori Parents,

We hope you are enjoying your summer and that everyone is doing well. We are excited to have begun our summer program and are looking forward to and planning for this coming school year.

At this time, our plans are to open at full enrollment on August 3rd. We know that the Montessori Method of teaching is the very best way to give your child the foundation he/she will need for further education and in life. Individualized lessons and the use of hands-on equipment truly help the child to internalize new concepts and build on those to discover new and more complex ideas. Students value time with their teachers and peers as they develop both socially and emotionally.

Our goal is to provide the very best environment possible, while prioritizing the safety of all of our students and staff. Should we be mandated by a state or local authority to switch to online, our teachers and staff are prepared to do so. Please understand that no credit/refund will be issued due to a forced closure – the regular monthly tuition will be due.

Our teachers have undergone extensive training over this summer and a system is being put into place that will allow more communication between teachers and parents, as well as the students. This will involve a different email for your child, which we are in the process of setting up.

We are currently working to provide newsletters, paperwork, communication memos and so forth electronically, so please be on the lookout for these in the near future. Again, have a wonderful summer and we look forward to being together again soon!

Sonia A Johnson, Director and the Montessori Administration
